

Features & Benefits:

- 100% Stainless Steel Burner
- Automatic Louver Control
- 4" Ceramic Fiber Blanket Insulation
- Pre-Packaged to minimize installation costs
- Low noise and vibration
- Meets Nationwide Emission Standards
- Externally accessible pilot and UV scanner
- Can operate down to 20% CH₄
- Varying sizes to meet your specific application, please contact sales for sizing

Types of EGF:

- Standard (4 MMBtu/hr - 150 MMBtu/hr)
- Micro (< 4 MMBtu/hr)
- Low NO_x
- Dual Zone (25:1 Turndown)

Additional Options:

- Platform for emissions testing
- Heat Shield
- Purge Blower
- Condensate Destruct System
- Auxiliary fuel system for low methane scenarios
- Louver shields
- Propane or Natural Gas Pilot
- Packaged with Gas Handling and Gas Compression Systems

Designed for your project by industry experts
